

PRESS RELEASE FROM WHITWICK PARISH COUNCIL

CHANGING FACES AT THE COMMUNITY OFFICE

At the end of the month, the Parish Council will be saying farewell to two staff – Cathy Tibbles our Parish Manager since 2017 and to Chloe Mabey who was our first Administrative Assistant since the Community Office opened in 2016. Working together for many years, Cathy and Chloe were the faces you would always see if you perhaps called into the Community Office to find out about the parish council, to book Park Hall or to ask for help or information on a myriad of topics. Cathy attended all the council meetings and provided professional advice as the council took on greater responsibility for land and buildings previously owned by the District Council.

Cathy said "I shall really miss working in Whitwick because it is a special community. When I began, I felt my role was to help make Whitwick a better place to be for the people who live and work here. I hope I tried hard enough for you – the council now has better playgrounds, vehicle activated signs, clean open spaces and Whitwick has been put on the 'council' map for the right reasons. I'm looking forward to travelling a little in my retirement and spending some time relaxing. I wish Chloe all the best in her future too – not quite relaxing as she is the proud mother of her second son born last year."

Tracey McLean will be taking over for six months as the Acting Parish Manager. Cathy and Chloe wish Tracey every success in this exciting role as the council enters a new four year term after the elections being held on 4th May.

9 March 2023
