## **FOR YOUR INFORMATION**

Last year the parish council responded to requests from members of the public for better surfacing to reduce the mud that is created in bad weather on the footpath. This decision was made to provide better access so that people can more easily and safely use this pathway.

The Parish Council wish to let our neighbours and visitors who use the entrance to land at the rear of Rosslyn Road (parish council public open space) know that this work is now planned to be taking place later this week (if the weather allows it to safely go ahead).

There will be some compacted gravel being laid and we hope it won't be too long to get it finished. We appreciate there is disruption to you as our neighbours and to visitors who normally use the open space.

*Cathy Tibbles*
